

OBJECTIVES

Upon completion of this program, participants should be able to:

- Provide an overview of the recent case law developments that impact the provision of healthcare.
- Implement strategies to safeguard the privacy of a patient's medical information.
- Develop strategies to protect Quality Assurance materials from discovery in a lawsuit.
- Describe the steps that a physician should take to clarify his/her role as a consulting physician to improve patient care and reduce potential liability exposure.
- Review the information that the physician must disclose to the patient to establish true informed consent.
