Application for Physicians' and Surgeons' Professional Liability Insurance

www.MLMIC.com

Important Notice

If you elect the claims made form of insurance, please be aware that no coverage will be provided for any incidents, occurrences, or alleged wrongful acts which took place prior to the Retroactive Date stated in the policy. Coverage is only provided for incidents that occur on or after the Retroactive Date stated in the policy and which are reported to the Company while the policy is in effect or within 60 days following termination of insurance, unless additional reporting period coverage is purchased, which would provide an unlimited time period to report covered Claims.

During the first several years, claims made premiums are lower than occurrence premiums, but then they increase substantially, independent of overall rate level increases, until the claims made risk reaches maturity. For further information regarding coverage, please read our brochure "A Closer Look: Claims Made vs. Occurrence", which may be found on our Web site indicated above.

All applications are subject to prior approval. If your application is approved, coverage can be provided no earlier than the day following our receipt of the signed application. Any Supplemental Application(s) that are required may be found on our Web site indicated above.
