

OFFICE POLICY AND PROCEDURE

CHECKLIST #1

MAINTAINING PATIENT CONFIDENTIALITY

Patient confidentiality breaches pose a significant risk in the healthcare setting. HIPAA and New York State laws govern your obligation to maintain the confidentiality of protected health information (PHI). Staff and providers must be aware that routine office practices, including telephone contact, verbal discussions, and computer use, inherently carry the risk of patient confidentiality breaches.

		YES	NO
1.	Staff has been educated, at a minimum annually, regarding HIPAA and patient confidentiality. Attendance is documented and maintained in their personnel files.		
2.	Confidentiality agreements have been signed by all staff members.		
3.	Staff conversations regarding patient care are not audible to patients and visitors in the waiting area.		
4.	The staff has been advised to never discuss patients outside the office, including on social media platforms.		
5.	The flow of patients through the office has been assessed to determine how best to maintain the privacy of PHI.		
6.	Computer screens are not visible to patients or visitors.		
7.	Computers in exam rooms are not left on or active when staff or providers are not present.		
8.	Any electronic device that is used for the transmission of PHI is encrypted and has regular software updates installed.		
9.	The practice can leave messages on patient answering machines (e.g., regarding appointments) only if contained in your Notice of Privacy Practices. Patients are offered the option of opting out.		
10	. Business Associate Agreements are obtained and maintained for all vendors who have access to PHI.
